No

**C. Summary Description of Proposed Project [including overview of Country, Sectoral & Institutional Contexts and Relationship to CPF]**

this is where the project abstract goes. It will flow to the ESRS form.

**D. Environmental and Social Overview**

D.1. Project location(s) and salient characteristics relevant to the ES assessment [geographic, environmental, social]

Testing the new ADM changes - Preserving our institutional memory starts with the creation or receipt of records and information in the WBG: e-mail, reports, notes, websites, videos, and much more. Capturing this information by filing it in the appropriate location increases the World Bank Group's knowledge base. This helps us, now and in the future, to deliver better products and services, enable evidence-based decision making, and increase efficiencies.
For the last six years, the World Bank Group Archives has honored staff members who make extraordinary efforts in support of records and information management. This year’s awards will be celebrated at the Oscar-themed Information Management Awards ceremony on April 17, 2018. In addition to awards honoring teams and individuals for their efforts in support of records and information management, a special BrettonWoods@75 Award will be given to an exceptional staff member who promotes and uses our rich history to make our current work better.
