Management's Responsibility for Financial Statements

Management is responsible for the preparation and fair presentation of the Financial Statements in accordance with the Government of Nepal (GON) accounting policies and relevant practices. This responsibility includes: designing, implementing and maintaining internal control relevant to preparation and fair presentation of project financial statements that are free from material misstatement, whether due to fraud and error.

Auditor's Responsibility

Our responsibility is to express an opinion on these Project Financial Statements based on our audit. Except as mentioned in following paragraph we conducted our audit in accordance with the INTOSAI (International Organisation of Supreme Audit Institutions) Fundamental Auditing Principles. Those Principles require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.
